Our Mission
To build a continuum of civic leaders committed to our community’s excellence by serving as a catalyst for civic engagement.

Evolution. We’ve come a long way from the merger in 2006 of four leadership programs that resulted in the formation of the Cleveland Leadership Center. Over the past 13 years, we’ve continuously grown and adapted to keep our participants and alumni engaged at the forefront of what is happening in our community. This year included:

7 core programs
Leadership Cleveland, LC2 Fellows, Cleveland Bridge Builders, OnBoard Cleveland, Campus Cleveland, Look Up To Cleveland, and Civic Leadership Institute

4 ancillary programs
Advanced Leadership Institute, Legacy Leaders, Dare2Lead, and Career Compass

4 customized experiences
Cleveland Public Library, Dominion Energy, and University School (one for freshmen and one for staff and administrators)

2 signature annual events
Accelerate and a leadership conference (now known as Spark)

We refined and shared our ground-breaking evaluation work – presenting four times, including at the prestigious American Evaluation Association annual conference. Our evaluation work allows us to continuously refine our programming to better serve the needs of our participants and the community.

We have been honored multiple times for our impact and innovation in community engagement and leadership development, including:
- The Association of Leadership Program’s Excellence in Innovation Award.
- Cuyahoga Metropolitan Housing Authority’s C.A.R.E.S. Award of Honor and Service.
- A Dominion Impact Award.
- Marianne being recognized as a Crain’s Cleveland Business Woman of Note.

The future of Cleveland holds much promise. Our role is to continue to prepare and inspire people, like you, to unleash that potential. We look forward to working with you to transform our region.

CLEVELAND LEADERSHIP CENTER ALSO CREATES CUSTOMIZED CIVIC EDUCATION PROGRAMS AND IMMERSION EXPERIENCES IN RESPONSE TO COMMUNITY REQUESTS.

“Show up, be committed, and give back!”

“I have a desire to stretch my comfort zone of relationships in the civic realm beyond people who look like me.”
Cleveland Leadership Center’s curriculum is built upon a guiding framework of four desired program outcomes: civic understanding, relationship building, collaborative leadership, and civic readiness. These four pillars guide development and delivery of our programs and serve as a structure for evaluation of each offering.

**Guiding Framework**

**Mission**
To build a continuum of civic leaders committed to our community’s excellence by serving as a catalyst for civic engagement.

**Civic Understanding**
Learning the history, critical issues, and current assets of our community and considering implications for the future.

**Relationship Building**
Creating opportunities to connect across a continuum of leaders.

**Collaborative Leadership**
Enhancing skills, knowledge, and personal awareness to build coalitions and effect positive change in the community.

**Civic Readiness**
Fostering individual attitudes, knowledge and behaviors that spark informed and sustained activity in the civic realm.

“I now feel more prepared to engage in the Cleveland community and understand how I can make an impact.”
Programs & Offerings

Senior-Level

LEADERSHIP CLEVELAND
LC provides participants with behind-the-scenes insights on Cleveland’s toughest issues, hones their leadership skills, and deepens their community impact. It strengthens networks, advances collaborative thinking, and provides a deep understanding of complex civic issues.

LC2 FELLOWS
LC alumni use the knowledge and skills they gained in LC to address a compelling community issue or opportunity.

Mid-Career

CLEVELAND BRIDGE BUILDERS
CBB prepares participants for meaningful, fulfilling, and impactful civic engagement through relationship building and experiential collaboration. Through self-discovery and community-based projects, participants advance their communication skills and understanding of group dynamics, learn to address social issues through collaboration, and meaningfully address civic issues through a Leadership Action Project.

College

CAMPUS CLEVELAND
Campus Cleveland is a collection of offerings that introduce college-age students to the expansive work, live, and play opportunities Cleveland has to offer young professionals. Campus Cleveland Summer highlights Cleveland’s professional and civic assets for summer interns. Career Connections is a series of career exploration and networking events. Service Breaks are week-long service experiences during school breaks.

High School

LOOK UP TO CLEVELAND
LookUp develops students’ leadership skills and increases their appreciation of the civic realm. Participants meet with local leaders across sectors, tour some of Cleveland’s most treasured landmarks, and discover how they can contribute to making Cleveland better. LookUp is offered as a six-month school year program (offered at no cost to participants), and as a one-week Summer Session.

Early-Career

ONBOARD CLEVELAND
OBC enhances communication skills and strengthens workplace presence. Participants gain a better understanding of critical issues and assets within Cleveland’s civic infrastructure and connect with civic opportunities that align with their personal interests. Participants discover and learn to leverage their individual strengths and to maximize contributions in professional settings and community involvements.

Customized Programs

CIVIC LEADERSHIP INSTITUTE
CLI raises participants’ civic awareness and engagement by immersing them in Northeast Ohio’s past, present, and future. Participants explore current community topics with top local leaders and gain a greater understanding of the interconnectedness of assets, organizations, and issues, including how they impact the public and private landscapes. It is offered in the fall, winter, and spring.

CLC Alumni

CLC hosts events and experiences that bring together alumni of all programs for education, connection, and engagement. These offerings keep past participants’ civic knowledge current and relevant. Through ongoing interactions with the region’s most dynamic and innovative people and places, alumni foster collaborative relationships, deepen their knowledge, and expand their skills to better position and equip them to advance key community initiatives.

Cleveland Leadership Center creates customized civic education experiences and leadership development programs to meet the needs of our community and the specific requests of local organizations. These civic education and immersion experiences heighten civic understanding and involvement, and develop critical collaborative leadership skills by engaging CLC’s vast network of community leaders and extensive experience in designing civic leadership curriculum.

“I am prepared and confident to approach organizations to collaborate or volunteer in the future.”
Every Cleveland Leadership Center program is evaluated through a retrospective pre-test (RPT). Participants rate their knowledge, attitude, and skills on 16 outcomes – each tied to one of the four guiding pillars. These charts illustrate the percentage of participants who agreed or strongly agreed with four of these outcomes before and after the program.

**Civic Understanding**

“I know about Cleveland’s civic assets, issues, and stakeholders.”

**Campus Cleveland 2019 participant**

I gained a deeper understanding of where Cleveland has been, where it is now, and where it is headed. I am now more educated on the issues of our community.

**Relationship Building**

“I have access to opportunities to form relationships with people from a variety of backgrounds.”

**OnBoard Cleveland 2019 participant**

I won’t hesitate to reach out, knowing there are leaders throughout the city who are happy to work together.

**Collaborative Leadership**

“I am able to work strategically with diverse community stakeholders to effect positive change.”

**Cleveland Bridge Builders 2019 participant**

Working collaboratively with people from very different backgrounds gives you an opportunity to accomplish much more than you could when operating in silos.

**Civic Readiness**

“I know how to find community engagement opportunities that are relevant to my interests and abilities.”

**Leadership Cleveland 2019 participant**

Each [LC] session continues to build upon each other which ultimately ignites the passion to stop the conversation and start to implement action.
Accelerate is a pitch competition which gives individuals across Northeast Ohio the chance to win seed money to help launch their idea and make the region a better place. All finalists win money to help bring their projects to life. Stay current on the presenters’ progress from across the years: www.cleveleads.org/AccelerateUpdates.

### Onè Respè
Karson Baldwin & Israel Kambomba
Karson and Israel’s Onè Respè program creates honor and respect between refugee and immigrant youth with teens at local high schools. Through friendships based on honor and respect (onè respè in Haitian), teens from diverse backgrounds integrate their worlds yielding understanding and solidarity.

### Never, Ever Give Up CLE
Allison Meyer
Allison’s vision for an art installation where people could share the hardest thing they’ve ever had to do and write letters of encouragement to those struggling became a reality – running from June 1 – August 31, 2019 at Hart Crane Park. The project continues online at neverevergiveupcle.com.

### My Fab House
Sonya Pryor-Jones
Sonya’s idea for a Fab House – a digital fabrication lab – in Glenville is moving forward. She has been raising funds and renovating the house her family donated to the project. Once complete, Glenville residents will be able to use the digital fabrication tools and learn from experts from across the globe.

### People and Food on the Go
Ronald Nelson
Ronald wants to create jobs and growth in Cleveland by helping people capitalize on mobile food entrepreneurship opportunities. He has been connecting with local nonprofits, culinary training programs, and economic development organizations to establish a network of partners.

### Unchained Filters
Kayla Ruffner
Kayla is creating a coffee filter that infuses amino acids into the coffee yielding increased attention, improved cognitive function, blood sugar regulation, reduced hypertension, and visceral fat reduction. She has been testing the filters and exploring the process of obtaining a patent.

### Art on Wheels
McKenna Hankins
McKenna’s dream is a mobile art studio to provide under-served populations, such as inner-city youth and elderly residents, with the opportunity to express themselves creatively. She has been working to establish a nonprofit, crafting a business plan, and networking with potential partners.
Revenue

Tuition covers less than 39% of the annual budget and 52% of all operating funds come from charitable contributions.

How these funds are used?
Annual operating funds allow Cleveland Leadership Center to inspire and connect people to transform Cleveland through eight multi-session, curriculum-based programs, as well as to:

- Connect leaders ages 50+ to meaningful engagement opportunities through Legacy Leaders.
- Offer anti-bullying programming to high school students and administrators through Dare2Lead.
- Broaden the career horizons of at-risk Cleveland high school students’ through Career Compass.
- Engage high school teachers, administrators, and students in relevant community issues through custom immersion experiences.
- Help people to see challenges through a new lens at the annual Spark leadership symposium.
- Provide a launchpad for new ideas to make NE Ohio a better place through the annual Accelerate civic pitch competition.

“I am more able to problem solve effectively with peers, and present my ideas in a way that is productive.”

"We learned more of what makes a leader, the different views and ideas and how to work together rather than focus on problems.”
We can only build for the future by understanding each other’s history, the assets and “baggage” our communities carry, and the impact decisions have on the people and their heritage.
“My most important takeaway continues to be the notion that we can’t get overwhelmed with the size of the problems faced by the community but should be encouraged by the fact there are so many motivated people willing to work.”

“[LookUp] opened my eyes to issues and problems that I didn’t even know we had. I am motivated to connect with local leaders and be more engaged with local government.”
